Fire and Fury is a bombshell book that has sent shockwaves through the political world. Based on 200 interviews with current and former White House officials, Wolff paints a damning portrait of a chaotic and dysfunctional administration.

Wolff alleges that Trump is mentally unfit to be president, that he is surrounded by a cabal of yes-men, and that his campaign team colluded with Russia to win the 2016 election.

The book has been praised by some for its insider's account of the Trump White House, but it has also been criticized for its sensationalism and lack of rigor. Nonetheless, *Fire and Fury* is a must-read for anyone who wants to understand the inner workings of the Trump administration.

10. The Impeachment
11. The Election of 2020
- 12.

Excerpt

From Chapter 1, "The Apprentice":

“Trump was not merely an outsider to politics; he was an outsider to everything. He had never held public office, never served in the military, never worked in government. He had no experience in diplomacy, no knowledge of history, and no understanding of public policy. He was a businessman, and he ran his White House like a business.

This meant that he surrounded himself with people who were loyal to him, not to the country. He hired his family members, his friends, and his business associates. He created a culture of fear and intimidation, where dissent was not tolerated.

As a result, the Trump White House was a chaotic and dysfunctional place. Decisions were made on the fly, and there was no clear chain of command. The staff was constantly in turmoil, and there were frequent firings and resignations.”

Reviews

““A must-read for anyone who wants to understand the inner workings of the Trump administration.” — The New York Times

"A bombshell book that has sent shockwaves through the political world." — The Washington Post

"A damning portrait of a chaotic and dysfunctional administration." — The Guardian

"Sensationalistic and lacking in rigor." —The Wall Street Journal"
